Concert Scheduled to Provide Financial Support for the New Teacher Development Fund

A fund for teacher development programs has been established. The fund will be used to help our members become more effective in their profession & to enhance our students' overall musical education. Proposals for the use of these monies will be discussed at the monthly HMTA meetings.

In order to raise money for this project, a Teachers Concert will be held at the Unitarian Fellowship of Houston on a date to be announced. A reception will follow. Teachers interested in performing in the concert should submit Application Form which can be found in the Forms section of this yearbook. The committee will be looking for a variety of instruments and styles to reflect the diversity of our organization. Volunteers are also needed to help with event promotion, ticket sales and other areas.
